

DMD meeting notes
March 6, 2003

ITAB report. Kay Dinolfo reported from the February ITAB meeting. The OIT has several white papers dealing with IT outsourcing and services offered by the office. HIPAA deadline is approaching.

Web accessibility. Kay Dinolfo reported that the committee is gathering information, including some 508 checklists and the IRS's activities in making electronic tax forms more accessible to the disabled.

Headers & Footers on htdig search results page. Kevin Lanahan gave an overview of how he rescripted the results page so that it displays on his MDI template instead of the OA template. He will work up a "Tips" sheet to be posted on the DMD Web site.

Upgrading Apache on Services. MOREnet is working with Lottery on this project. They plan to have an update in April.

New Business

PowerUP conference. Tom Stokes announced that the Missouri Assistive Technology project would be holding its annual PowerUP conference on disability aids.

There was some discussion about the use of Report Magic to reformat the Analog server log analyses.

Agency Projects/ Open Discussion

Kirk Keller asked for assistance in setting up a live two-way Web broadcast of an event. Jennifer Xie from the Gaming Commission said that the commission's meetings are now Web-cast to all the gambling boats. It was also suggested that the distance learning experts (MU Extension, Missouri National Guard) could be good resources.

There will be a group meeting to discuss setting up an RSS newsfeed on the state home page.

Because the first Web workflow seminars were so well received, the DMD plans to set up a third session. Additional presenters may be needed.
